BS 18B25 Grey

BS 08B29 Bronze Tone

BS 00E53 Black

BS 14C39 Cactus

BS 18B29 Graphite

BS 18D44 Blue

BS 08B27 Harmony Bronze

Please note colours shown are only approximate and limited by the printing process. Colour may also vary by batch in production.

Description

Spandrel glass is produced in seven standard colours, supplemented by a variety of white options. Special RAL colours are available upon request.

Spandrel Panels are not designed to be viewed in transmitted light and the resultant colour will vary depending on the thickness of the base glass. Please contact us for advice before specifying.

Applications

Camden Spandrel Glass is used primarily with curtain wall applications, which allow the whole exterior of the building to be fully glazed. This has the advantage of covering construction elements in non-vision areas, such as hung ceilings or the edges of floor slabs.

Camden Spandrel glass can be incorporated into insulated sealed units; it can either match or contrast the adjacent vision glass, depending on the colour or coating of the external glass.

Advantages

- Wide range of visual effects available
- Provides uniformity of curtain walling appearance
- Choice of insulation to suit most performance requirements
- Total concealment of internal structure or services
- Free from discolouration by internal condensation.
- Durable
- No colour fading.
- Lead free.
- Insulated panels can be provided with range of internal finishes.
- Ease of installation.
- All available toughened to BS EN 12150: BS EN 12600 Impact Classification 1.
- Resistance to corrosion and chemical attack.
- Minimal maintenance.
